The members of the Red Cross committee are having some difficulty in making clear to the different members of the Red Cross just what it is they wish to know. It is the object of the committee to find out from the different members what they will do in the line of service in case of emergency and need of help. At present there is no call for verticers, as there is no need of them. It is the desire of the committee to get the names listed in the different classes of service so that when the call is made for help, they can be called on for immediate service in their chosen line. The committee in charge of this work of getting information is Mrs. Frank Ib. Scotten, chairman: Mesdames W. Erder and Henry Alexander, M. Sanches and Miss Luin Preefer.

Fashions, or Woman's Health

The first thing many persons think of finding on the Woman's Page of a newspaper is the Pashions. That is there. Health is the first thing, and many women lack it. Notes telling how to preserve the health are of the greatest value and interest for women; and, if they are suffering from woman's ailments, they read with the nost intense interest how other women got well from their aitments, and so they too get what made them well -Lydia E. TODAY'S BEAUTY TALK

You can make a delightful shampon with very little effort and for a very triffling cost, if you get from your druggist a package of canthrox and dissolve a to spoonful in a cup of hot water. Your shampoo it now ready. Just pour : little at a time on the scalp and rub briskly. This creates an abundance of thick, white lather that thoroughly dissolves and removes the dundruff, excess oil and dirt. rinsing, the hair dries quickly, with a fluffiness that makes it seem heavier than it is, and takes on a rich luster and a softness that makes arranging it a pleasure.—Adv.
